

**Product : WA316-1KTx2ML****Product Name : Nematode Defense Kit****Product Information :**

Nematode Defense kit can be used to prevent the vegetables, fruits, oilseeds, agricultural crops etc., from various types of pathogenic nematode borne infections.

**Kit Contents :**

WA305-1NO x2ML	SuperStar	WA305 and WA308 helps in preventing various pathogenic nematode borne infections in agricultural crops.
WA308-1NO x2ML	SuperKiller	

**Recommended Dosage :**

Mix SuperStar [2ml] and SuperKiller [2ml] in 100 liters of water and use for one acre land through drenching/drip irrigation.

**Directions for Use :**

1. Measure out approximately 10 liters of water. Add contents of both the vials in the kit, e.g., SuperStar [WA305] and SuperKiller [WA308] and mix well to get a homogenized solution.
2. Make up the final volume of the above solution up to 100 liters by adding water.
3. Use the solution at the rate of 100 ml per plant by pouring it around the plant root zone or through drenching/drip irrigation.

**Suitability :**

This kit has been tested and is found suitable for agricultural use.

**Storage & Shelf life :**

Store the product in a cool dry place away from direct heat and sunlight. Use before expiry date mentioned on the label.
