

**Product : WA352****Product Name : SuperThur-K****Product Information :**

SuperThur-K helps in proper growth and development of various crops, primarily used for prevention and control of plant pathogenic insect pests.

**Recommended Dosage :**

2ml of SuperThur-K per 100 litres of water

**Directions for Use :*****Soil application :***

1. Add 2ml of SuperThur-K in 100ml of water, mix well to get a homogenous solution.
2. Make up the final volume to 1 litre by adding water.
3. Mix well and use this SuperThur-K solution with 50kg of vermicompost/dung/compost manure. Apply this mixture around the root zone for crop per acre.

***Seed application :***

1. Add 2ml of SuperThur-K in required volume of water to coat desired seeds per acre.
2. Treat the seeds by gently rubbing them in the solution [Use rubber gloves].
3. Let the seeds dry for 15-20 mins in shade by spreading them on a plastic sheet.
4. Seeds treated in this manner can now be used for sowing purpose.

***Drenching/Drip application :***

1. Add 2ml of SuperThur-K in 10 litres of water, mix well to get a homogenous solution.
2. Make up the final volume to 100 litre by adding water.
5. Mix well and use this SuperThur-K solution around the root zone for crop per acre through drenching or drip.

**Quality Control :**

Colour of liquid	Light brown to brown
Contamination	No contamination at 10 <sup>5</sup> dilution

**Storage & Shelf life :**

Store the product in a cool dry place away from direct heat and sunlight. Use before expiry date mentioned on the label.
