

**Product Code :** WA361-1KTx2ML

**Product Name :** Superrid [For Nematode Prevention & Control]

**Application :** This kit can be used to prevent and control various pathogenic nematode borne infections of agricultural crops.

**Product Information :**

WA308-1NO x 2ML	SuperKiller	It helps in preventing pathogenic nematode borne infections of plants.
WA364-1NO x 2ML	SuperPoco	It helps in preventing pathogenic nematode borne infections of plants.

**Recommended Dosage :**

Mix SuperKiller (2ml) and SuperPoco (2ml) in 100 litres of water and use for one acre land through drenching / drip irrigation.

**Directions for Use :**

1. Measure out approximately 10 liters of water. Add contents of both the vials in the kit viz., SuperKiller (WA308) and SuperPoco (WA364) and mix well to get a homogenized solution.
2. Make up the final volume of the above solution up to 100 litres by adding water.
3. Use the solution at the rate of 100ml per plant by pouring it around the plant root zone or through drenching / drip irrigation.

**Storage & Shelf life :**

Store the product in a cool dry place away from direct heat and sunlight. Do not store the product along with food or animal feed. Empty vials should not be used for storage of any food products. Keep the product out of children's reach. Use before the expiry date mentioned on the label.

**Note :**

For Agricultural use only.
